### Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular, the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

### SCOTT'S EMULSION

is such a great aid because it passes so quickly into the blood. It is partly digested before it enters the stomach; it contains the stomach's regular food for the stomach; it is quick and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

### TO PRESERVE THE HEALTH

Hints and Suggestions Which May Be Found Helpful to the Looks as Well.

For a good complexion most wash try the following: Take a pint of hot water and dissolve in it two drams of sweetened borax; when the water cools add one dram each of spirits of camphor and tincture of myrror.

It is not generally known that castor oil may be most easily taken mingled with orange juice, a little sugar being added to the juice if the orange is sweet. The difference between this and any other mode of taking this valuable medicine is surprising.

A floor should never be swept in a room where there is a contagious patient. It should be washed with a cloth dipped in borax water, so that no dust annoy the patient and no assortment of germs are raised in the air.

Never eat anything that you know disagrees with you if you want to keep the greatest amount of the blood, and for this reason the simpler the food one eats the better. Fresh fruits are cooled, and green vegetables should be eaten in moderation.

Barbe the face with hot water before using any cosmetic. Rub well into the skin a good cream or ointment and with the tips of the fingers work the cream into the skin. Rub the cream into the skin.

Never use any cosmetic that is not recommended by a physician. The use of cosmetics is a very dangerous thing, and should be avoided.

With the issue of the *Jessamine* News of January third, that splendid weekly, celebrated its nineteenth birthday. Mr. D. O. Groff is the present editor of the News and he is to be congratulated for turning out such a bright, new paper.

The close of business for the year 1904 in the Auditor's office shows a balance of \$1,790,320.36 in the State Treasury, exclusive of all warrants and claims issued, which is probably the largest balance in any corresponding period in the State's history.

In the Appellate Court Wednesday, Judge Nunn writing, reversed an order of the Lawrence Circuit Court in a case of C. T. Vaughn against H. B. Hinton, raising the question of authority of a circuit court to pay over orders for their service. The whole court here considering the question, holds void an order of the Lawrence County Circuit Court paying over orders. It says that under Section 610 of the statute a circuit court is not authorized to pay over orders without authority to appropriate county funds unless specifically authorized by law.

### WORK HAS BEGUN

On the History of Richmond and Madison County

By this we mean that the active work of photographing, compiling and illustrating has begun. As we announced in our last issue, the CLIMAX will issue a handsomely illustrated history of Richmond and Madison County. This history will mean to the city of Richmond and the towns in the county what the Commercial Club has meant to the larger cities throughout the United States. A Commercial Club is an institution formulated by the progressive business men of a city to show to the world at large the manifold advantages that their city possesses over all others: it is managed by men who have business interest in the city, and whose pride in the future welfare of their city is so strong in their hearts that they are willing to take their valuable time and money from their business, to further any proposition that is to the interest of their city. That is why the cities are, as a rule, so prosperous, and have so many more advantages in the ways of manufactures, etc., than the smaller towns who have no such organizations. And in what way do these Commercial Clubs accomplish all of this good to you ask? By letting the public know what they have to offer as an inducement. And how do they let it be known? By publicity, which is a mild term for advertising. This Magazine will be printed in book form, 40 to 50 pages, size 12x18 inches, and will be printed by one of the largest printing plants in Louisville. There will be over two hundred illustrations used in this book, which will be made by Tinsley Engraving Company, also of Louisville. All photographs used in this book will be made by our special artist. The cover design of this book will be printed in two colors and will represent the most approved style of artistic designing and engraving.

This book will be the means of giving publicity to the entire town and county, which is of course advertising, but it will not be an advertising sheet. We will have a certain amount of advertising set aside for those before the people of the county in something that the people are interested in, and these advertisements will be in the advertising pages only. We have selected some of the leading merchants in the various lines whom we will write up and photograph their building, but they will be only the leading ones.

This book will be valuable to go away in the archives of your library to read and re-read by the succeeding generations. There will be five thousand of these beautiful books printed and given away as a supplement to this paper, besides a large number of extra copies to be sold at twenty-five cents each.

will be added to this important department of the CLIMAX. A few years ago it was necessary for our merchants and citizens to send their job work (or a part of it) to the city because the office in Richmond was not equipped to take care of the class of work desired. Now it is different, and we are proud to say our people have realized this fact. With the new equipment of the CLIMAX office, we are now in a position to take care of the class of work desired. Now it is different, and we are proud to say our people have realized this fact. With the new equipment of the CLIMAX office, we are now in a position to take care of the class of work desired.

Autumn stocks replenished  
throughout the state and having  
enormous quantities in evidence. All  
goods and fabrics in various  
amounts to satisfy the needs of  
the season. The reputation acquired  
for service in these lines has  
recently maintained the season. As  
customers are fewer, prices are  
more, favoring the buyer. We  
suggest to prospective buyers that  
they visit these stocks as soon as  
possible. The visit will give them  
knowledge of the vastness of  
the selections here made for choosing.

**DEFILES THE GODDESS FELE**  
The efforts of the goddess Fele  
Queen to put down superstition  
Among Her People.

Queen Kapihala, a noble-looking  
woman of the island of Hawaii,  
was one of the first converts to Chris-  
tianity. She had a beautiful and  
magnificent specimen of Hawaiian woman-  
hood, with the "haughty air" of the  
flower of the tropics.  
She had immense power over her  
fellow countrymen and women. In her  
youth, she was a Christian, and she  
was the first to break the  
fetters of the old superstitions.  
She had a beautiful and magnificent  
specimen of Hawaiian womanhood,  
with the "haughty air" of the flower  
of the tropics.

Her approach and her defense were  
most dramatic. For she wished to im-  
press her awe-inspiring subjects with the  
powerfulness of the goddess. She was  
in state she made her way up the moun-  
tainside, while the people, trembling  
and frightened by her beauty, followed  
at a distance. The priestess of the
